

Minutes from previous meeting

22.05.2024

Client:

Frank de Lepper

f.delepper@fontys.nl

Location	R10 2.60
Starting time	13:30
Duration	30min
Ending time	14:00

Team:

Nyambe Imasiku - 525792@student.fontys.nl

Samuil Kozarov - 527531@student.fontys.nl

Ivan Anastasov - 525948@student.fontys.nl

Alex Mazilu - 525933@student.fontys.nl

Meeting Leader:

Ivan Anastasov - 525948@student.fontys.nl

Secretary:

Nyambe Imasiku - 525792@student.fontys.nl

Topics:

1. Introduction
2. Presentation and feedback of the activity diagram for the automatic schedule generator
3. Feedback on presentation on 15.05.2024
4. What are the expectations of the client for the final product

Summary:

Introduction:

1. Approving the meeting minutes from last meeting (08.05.2024): everything was correct

Activity Diagram:

1. Presenting an improved activity diagram for the Automatic scheduling feature - usually weekly schedules are created, so the app should be able to do so too. Overall, the diagram is clear enough
2. Present implementation and functionality in next meeting (29.05.2024)

Presentation feedback:

1. Feedback from the last presentation will be provided by the next meeting (29.05.2024)

New Requirements:

1. Keep track of hours worked by each employee per week and per month
2. Track when employees clock into work and clock out (we could implement this with the barcodes/cards) (HR manager has access)
3. View statistics with the amount of sick leave and holiday for each employee (HR manager).

Additional feedback

1. Depot Restocking feedback - it appears to be more user friendly, a demo of it will be shown next meeting (29.05.2024)
