

Minutes from previous meeting

08.05.2024

Client:

Frank de Lepper
f.delepper@fontys.nl

Location	R10 2.60
Starting time	13:30
Duration	30min
Ending time	14:00

Team:

Nyambe Imasiku - 525792@student.fontys.nl
Samuil Kozarov - 527531@student.fontys.nl
Ivan Anastasov- 525948@student.fontys.nl
Alex Mazilu - 525933@student.fontys.nl

Meeting Leader:

Ivan Anastasov- 525948@student.fontys.nl

Secretary:

Samuil Kozarov - 527531@student.fontys.nl

Summary:

Automated scheduling diagram presentation Feedback:

- Make the manager have the option to select number of employees per shift to make it more flexible
- After assigning an employee it should loop back to the beginning and select another employee and do the same until all employees are assigned

- Look for people for shifts, not for shifts for people to make sure that each shift has enough employees assigned

Demo of Web App Feedback:

- The colours of schedule are misleading, change them to red, don't show text
- Workers should specify when they are not available, not when they are available. They can be available for all day, or only for some shifts, but can't work more than 2 shifts

Desktop App Feedback:

- Scanning products should be simpler, sales representatives should scan the product, input the amount and submit, no use of the mouse
- The depot manager should be able to set the minimum amount of stock for each product. If the minimum amount of stock is reached an advice should be sent to him to order new products

Agenda Feedback:

- Include a topic for approving the minutes - At the start of the meeting ask if there are any remarks, it needs to be noted that the minutes were approved
- There should only be 1 secretary
