

Minutes from previous meeting

24.04.2024

Client:

Frank de Lepper
f.delepper@fontys.nl

Location	R10 2.60
Starting time	13:30
Duration	30min
Ending time	14:00

Team:

Nyambe Imasiku - 525792@student.fontys.nl
Samuil Kozarov - 527531@student.fontys.nl
Ivan Anastasov- 525948@student.fontys.nl
Alex Mazilu - 525933@student.fontys.nl

Meeting Leader:

Alex Mazilu - 525933@student.fontys.nl

Secretary:

Samuil Kozarov - 527531@student.fontys.nl
Ivan Anastasov- 525948@student.fontys.nl

Summary:

Schedule generator chart:

- Managers should be able to change the default value for the employees for a shift
- Managers decide how long ahead they want to schedule for
- Make a new chart for the automatic scheduling based on the changes

Website demo:

- Should be able to change personal info on the website

Desktop demo:

- Make the schedule generator more flexible (if a manager leaves for 3 weeks the schedules would need to be generated somehow)
- Junior manager should also be able to make the schedule for the department
- Currently there is only 1 manager per department
- Junior managers do partly sales representative work, partly manager work
- Depo Manager should select a supplier, add the products to the order and then place it
- Sales representative should be able to order more products by scanning the barcode of a product and choosing the amount
